

BUILD YOUR OWN PICTURE FRAME

Draw or glue a picture of
your family in the middle of the
frame. With the help
of a grown-up, cut out the
template. Fold each square
along the dotted line-make sure
each fold is in the same direc-
tion (not like an accordion).
Tape square 3 to the back of
your picture frame.
Now your frame can sit on a
table, desk or shelf
for everyone to see!
